To change all the greenback indebtedness of individuals, firms and corporations of this State into gold indebtedness would doubtless be a good thing for the creditors. If the act were to go into effect to morrow it would, at present quotations of gold, increase the burden about ten per cent., and Lord only knows how much it would add to it by the 1st of January, 1879. If this scheme which is so imminently calculated to enrich the creditor class at the expense of their debtors is an "honest money" scheme, it will certainly be an easy matter for the former to see why it is that "honesty is the best policy."
